AI BUSINESS HARNESS

Owner-approved estimate follow-up

Keep estimates moving. You stay in control.

Built toward one goal: no estimate goes cold, and nothing goes out without your OK in Stage 1.

Model + AI Business Harness = AI Agents

5 tricky leads. 5 checks passed.

Live AI model test on synthetic cases:

✓ Routine: consent check + internal drafts.
✓ Missing price: estimator review, no invented amount.
✓ Discount: human review, no discount approved.
✓ Override trick: escalated; message draft denied.
✓ STOP: contact hard-blocked; one review task.

0 external actions. Proposals only—not customer results.

About $0.0074 total in estimated model usage for these five cases—about 0.15¢ per case. This is not the service price or a prediction of future costs.

Tested Nov 7, 2026, 12:10 PM PST with a current AI model.
Proposal-only: no customer contacted, no booking made.

The offer

One-time setup

$3,500 Founding Client
$5,000 standard

Founding Client Program: existing 3 spots through January 31, 2027, subject to availability and agreed scope. Same 30-Day Installation, in exchange for before-and-after numbers and a named or anonymous case study. Paid engagement, not a free trial.

Stage 1 managed

$1,500/month

You approve every customer-facing message.

Stage 2 routine sending

+$1,000/month
$2,500/month total

Unlocked after 30 clean days in Stage 1, testing and separate authorization. Routine follow-ups send on their own within approved rules; consent, STOP rules and exception review remain. Not enabled in this prototype.

Optional appointment fee

$50 per booked estimate appointment, capped at $1,000/month. Attribution and qualification rules agreed in writing.

Multi-workflow plan

Operations Partner from $5,000/month, 90-day starting term. Separate from the focused estimate follow-up plans.

Add-on agents

Receptionist, review requests and scheduling: Priced at your walkthrough.

Custom scope and feasibility confirmed before connecting anything. Third-party software and usage costs identified during scoping.

Start with a free estimate leak audit.

Review open estimates and follow-up gaps first. No promise of recovered revenue—just a clear starting point.
